2024 Professional Development Annual Retreat & Plenary Talk

The PD Core sponsors a one- or two-day annual retreat focusing on contemporary research topics and themes designed to enhance our programs and better prepare Scholars for careers in clinical/translational research. The retreats include an opportunity for the LA CaTS Scholars and Pilot Grant awardees to network and present their research.

Part of the retreat features a distinguished plenary speaker, open to all investigators.

LA CaTS Community Scholars Program

The LA CaTS Community Scholars Program (LaCoSP) provides formal training and pilot project funds for teams comprised of a community and an academic partner interested in conducting community-engaged research (CErR) studies.
